

Kim Hill

hope *no matter what*

Hope No Matter What is a tuneful, timeless reminder that the Lord is always with us, regardless of the circumstance...a profound statement of faith that encourages and facilitates healing.

Broken Things

Broken Things has been hailed by critics as one of Kim Hill's "bravest" projects to date. This cd produced by Paul Ebersold (Three Doors Down, Third Day) showcases her raw, award-winning vocals, rocking instrumentation, and deep messages pointing to God's goodness in spite of the broken human condition. These largely autobiographical songs resonate not only because of their authenticity and relevance, but also because the woman singing them has so obviously lived the lyrics, which brings unique beauty and maturity to this recording.
